

PRESS RELEASE

Helmut Eisenkolb joins the General Management of Würth Industrie Service

Bad Mergentheim/Main-Tauber-Kreis. On the occasion of the anniversary of “25 years as an industry partner”, Würth Industrie Service GmbH & Co. KG has expanded the General Management: Helmut Eisenkolb, Head of Logistics at Würth Industrie Service, will be appointed to the General Management on 1st July 2024 to join Martin Jauss, Chairman of the General Management, Stefan Reuss, General Manager IT and Digital Solutions, Ralf Gehringer, General Manager Finance, and Marcus Otto, General Manager Purchase. After holding positions for the Würth Group in Germany, China and Malaysia, he was most recently responsible for the Logistics department at Würth Industrie Service since 2017. The company is broadening the management responsibility while at the same time strengthening its logistical core competency as a comprehensive C-Parts partner.

Helmut Eisenkolb’s expertise comes from his many years of experience in the Würth Group. After completing his studies at the Reinhold-Würth-University of the Heilbronn University of Applied Sciences as well as at the University of Applied Sciences and Arts, Northwestern Switzerland, Helmut Eisenkolb, born 1982, started working at Würth Industrie Service in International Key Account Management. After a year in Bad Mergentheim followed an unfaltering commitment in Business Development for Würth Line Industry in Shanghai/China in 2012. After that in 2013, he took over as the Director of Würth Industrial Services Malaysia Sdn. Bhd. in Kuala Lumpur and was responsible for the industrial business of the Würth Group in Southeast Asia. Helmut Eisenkolb also supported the foundation of Würth Logistics Asia-Pacific Sdn. Bhd. in 2014, the main 4PL transport service provider of the Würth Group – with specialisation in planning, organisation and control of supply chains – and was responsible as the Managing Director for the restructuring and SAP implementation of the trading company Wuerth (Malaysia) Sdn. Bhd. from 2016 to 2017.

He returned to Germany in 2017 and took over the responsibility as the Head of Logistics department in the management of Würth Industrie Service and with that, shouldered the responsibility to strategically develop one of the most modern logistics centres for industrial supply in Europe. In 2018, he was appointed as the authorised signatory and has been representing the companies of Würth Line

Industry on the Board of Group Logistics since 2020. In 2015, he was awarded the Würth silver honour pin for his commitment and services.

“The continuous development of our logistics through innovative technologies and new approaches ensures the future viability of our company and also the jobs at the Bad Mergentheim location. I am happy to take over the responsibility of the Logistics division as a General Manager from now on and to be able to further advance the transformation of logistics in the interests of our employees together with my team,” said Eisenkolb. “The logistics of the future is high-tech. Due to constant growth of Würth Industrie Service, we continuously initiate projects to develop logistics further and to integrate new technologies into our processes. Aside from robotics and autonomous vehicles, Artificial Intelligence is paramount for the optimisation of our processes – all this with the consideration of sustainability in the supply chain. To forge new paths and drive innovation – I am looking forward to it.” Helmut Eisenkolb will take charge as the General Manager of Logistics at Würth Industrie Service with effect from 1st July 2024.

Brief profile of Würth Industrie Service GmbH & Co. KG

Within the Würth Group, Würth Industrie Service GmbH & Co. KG is responsible for supplying to the industrial sector. Since its foundation in the year 1999, the company is located at the Würth Industrial Park in Bad Mergentheim, Germany with over 1,800 employees.

As a one-stop C-Parts provider, the company offers its customers a specialised product range with over 1,400,000 items: from screws and tools to connection and fastening technology, technical chemicals as well as occupational safety solutions. Aside from the extensive standard product range, the strength of the company lies in its customer-specific, logistical and dispositive supply and service concepts as well as special parts. Under the service brand "CPS® - C-Product Service", the company offers modular solutions customised as per the customer's requirements. These consumption-based and demand-based systems streamline the processes for purchase, logistics and quality assurance while enabling the procurement of small parts in a cost-optimised manner. Logistic and dispositive services such as shelving systems that use scanners or a just-in-time supply using Kanban bin systems play a significant role in increasing productivity.
